OwnBlock: Co-Own Prime Real Estate & Operating Businesses on Solana

Combining Pacaso's fractional co-ownership, Lofty's instant liquidity, and Housd's 30/70 on-chain acquisition financing — enforced by SPV corporate law.

MINIMUM TICKET
$100 USDC
Fractional SPL Token-2022 Shares

ANNUAL CASHFLOW YIELD
11.4% – 19.5%
Rent & Business EBITDA Dividends

HOUSD LEVERAGE
30% / 70%
Co-Buyer Equity + Senior Loan

Real Estate + Operating Businesses

Co-buy luxury residences in Tbilisi, Batumi, Gudauri & Baku OR acquire 30%–50% equity stakes in profitable local businesses (coffee chains, wineries, AI hubs).

4-Party Non-Custodial Escrow

Zero counterparty risk: funds remain locked in a Solana PDA vault earning 6.5% APY until Co-Buyers, Seller, and the Public Registry Notary sign on-chain.

Why 90% of Investors Are Locked Out of High-Yield Real Assets

Emerging growth hubs like the Caucasus offer 12–20% real yields, but antiquated capital markets block everyday buyers and founders.

SELLER REQUIREMENT

100% Upfront

Full cash demanded at closing

LOCAL BANK MORTGAGES

13.5% – 15% APR

High rates & slow bureaucracy

INFORMAL SYNDICATES

0% Escrow Safety

Custody & title disputes

Buyers Have Partial Capital ($5k–$30k), Not $150k

Thousands of retail and crypto investors want to own a fraction of an apartment or local business, but have no trustless way to pool capital and co-sign title.

Profitable SMEs Cannot Sell Partial Equity Easily

Founders of cash-flowing businesses (e.g., a 5-branch coffee roastery or winery) want to sell 30–40% equity for expansion without taking predatory bank debt.

Problem: High-yield assets exist, but fractional trust + leverage infrastructure is missing.

Two Asset Classes, One Unified Solana Co-Ownership Protocol

OwnBlock turns both physical real estate and cash-flowing SMEs into standardized, legally ring-fenced Solana SPV syndicates.

PRIME REAL ESTATE

11.4% – 14.2% APY

Vake, Batumi Riviera, Gudauri, Baku

OPERATING BUSINESS SHARES

16.2% – 19.5% APY

Coffee Chains, Wineries, AI Clusters

ESCROW WAITING YIELD

+6.5% APY

Accrued while syndicate fills

1. Fractional Real Estate Co-Buying

Select 1/10, 1/8, 1/4, or 1/2 shares of vetted apartments and resort villas with diplomatic or hotel-managed leases.

2. Fractional Business Equity Buyouts

Buy corporate shares in verified operating companies with live POS/Open-Banking revenue tracking and monthly USDC EBITDA dividend payouts.

Both asset classes use the exact same Solana Anchor escrow & SPV legal pipeline.

30% Co-Buyer Equity + 70% On-Chain Housd Credit Pool

Co-buyers don't need to wait months to raise 100% of the price. Once co-buyers pool 30%–40% down payment, the Housd Senior Credit Pool finances the rest.

CO-BUYER DOWN PAYMENT
30% – 40%
First-loss equity tranche

HOUSD SENIOR DEBT
60% – 70%
8.5% Fixed USDC APY for LPs

DEFAULT PROTECTION
5% Reserve Buffer
Auto-covers missed payments

Progressive Token-2022 Equity Unlock

At closing, 30% of SPL shares are immediately unlocked and 70% are locked as loan collateral. Every monthly rent/EBITDA payment unlocks more shares.

Institutional-Grade Senior Safety for DeFi LPs

DeFi liquidity providers earn 8.5% fixed USDC APY backed by first-lien real estate & corporate collateral plus a 30% equity cushion.

Solves the #1 RWA bottleneck: slow syndicate fundraising.

SPV LLC Legal Twin + 4-Party On-Chain Escrow Gate

Every listing is paired with a dedicated Special Purpose Vehicle LLC registered with the National Agency of Public Registry (NAPR).

SMART CONTRACT
9 Instructions
Solana Anchor (Rust)

CLOSING REQUIREMENT
4 Signatures
Co-Buyers + Seller + Notary Oracle

SHARE STANDARD
1,000,000 SPL
Token-2022 per SPV LLC

Ricardian SHA-256 Contract Binding

The SPV Operating Agreement & NAPR Extract ID are hashed on-chain (legal_doc_hash). execute_closing reverts unless all 4 parties sign.

Automated Cashflow Waterfall (pay_installment_or_rent)

A single Solana instruction routes monthly rent or business EBITDA to pay Housd senior principal + interest first, then distributes net USDC to co-buyers.

What We Built: Marketplace, Escrow Simulator & Admin KYB Console

A complete full-stack application live at ownblock.vercel.app with real Solana Devnet RPC telemetry and Phantom/Solflare wallet signing.

LIVE DEALS

6 Caucasus Assets

3 Real Estate + 3 Operating SMEs

ADMIN CONSOLE

7 Verified Profiles

KYC/KYB, AML Score & Live Holdings

WALLET MODES

Live + Demo

Phantom/Solflare + 5 Demo Personas

Interactive Deal Simulator for Judges

Judges can select 1/10 to 1/2 shares, fund equity & Housd debt, co-sign the 4-party SPV contract, execute closing, and trigger monthly cashflow waterfalls.

Built-In Admin & Compliance Dashboard

Real-time back-office panel inspecting user Passport/NAPR IDs, bank IBANs, AML scores, and live on-chain SPV equity & loan positions.

Revenue Model & 6-Month Execution Roadmap

Clear monetization across syndication closings, Housd credit spread, and secondary share trading — targeting $5M TVL within 6 months.

ORIGINATION FEE

1.5% at Closing

On funded Real Estate & SME SPVs

HOUSD NET SPREAD

1.0% NIM

Between borrower APR & LP APY

6-MONTH TARGET

$5.0M TVL

Across 25+ Caucasus RWA & SME deals

Months 1–3: Legal SPV Standardization & First $1.2M Pilot

Complete Anchor audit, finalize NAPR instant SPV LLC registration pipeline in Tbilisi & Batumi, and close first 3 residential + 2 SME equity deals.

Months 4–6: Regional Expansion & Secondary Orderbook

Expand operating business buyouts to Yerevan & Baku, onboard institutional USDC lenders to the Housd Pool, and launch instant P2P Token-2022 trading.
